

ALL DAY LONG

© RYAN GUILLEY

Two hearts that will always cherish,
As I hold tightly to my lovely dearest,
I am surrounded by you all day long,
Our love for one another is never wrong.

Your smile and beauty is the whole Earth,
I want to thank you for our kids by giving birth,
You have always taken good care and put them first,
When I was traumatized from the years being at my worst.

It will be soon that we will come together,
Being a family, for the good and the better,
I will hold and hug you like I just want too,
Missing you, people don't even have a clue.

I just wanted to write to thank you so much,
Even when you are not here, you still my crutch,
The tears form in your baby brown eyes,
As we will go to the malls and certainly buy.

Nice clothes for you, and nice gifts for the kids,
Just walking next to one another on our grids,
It was nice of someone to say your name tonight,
It just felt so perfect, and the best, as it felt right.
